# Fire Evacuation Procedure for Staff and Students

## If the alarm sounds:

- Leave your classroom immediately and ensure all your students accompany you
- There are two fire exits at ground level from both staircases (84 & 86 Old Brompton Road) – use the fire exit nearest you
- Accompany your students to the fire meeting point, which is **on the corner of Old Brompton Road and Queen's Gate**

## Staff Responsibilities:

- **Jason (or Lu Qian if she is on Reception) is the Fire Co-ordinator:** S/he will take the door entry netbook to the fire meeting point. S/he will sound the fire alarm if it is not already going off, and on leaving the building will check the Fire Zone on the Fire Alarm Panel (at the entrance to 86).
- The **Fire Co-ordinator** is responsible for calling the Fire Brigade, with the college postcode, and is the main point of contact with the Fire Brigade when they attend.
- In addition to dealing with the Fire Brigade, the **Fire Co-ordinator** will check that all people who were in the building are safely gathered at the meeting point. All Fire Wardens, students and staff should therefore report to the Fire Co-ordinator on evacuating the building.
- **Lu Qian is a Fire Warden:** she is responsible for checking the building has been evacuated and moving people towards the fire meeting point. The Fire Warden is responsible for reporting to the Co-ordinator whether the building is clear, or whether someone is trapped in the building or refusing to leave.
- **Virginia is a Fire Warden:** she is responsible for sweeping the building on the **84 side**, working down from the top floor checking every room, including the lavatories, has been evacuated. She is responsible for reporting to the Co-ordinator whether the 84 side of the building is clear, or whether someone is trapped in the building or refusing to leave.
- *If Virginia is not in her office at the time/ on that day:* **staff teaching on the top floor on the 84 side** should make sure that one of them is **Acting 84 Side Fire Warden** checking all the rooms have been evacuated as they move downstairs, and then reporting to the Co-ordinator that that side of the building is clear.
- **Sean is a Fire Warden:** he is responsible for sweeping the building on the **86 side**, working down from the top floor checking every room, including the lavatories, has been evacuated. He is responsible for reporting to the Co-ordinator whether the 86 side of the building is clear, or whether someone is trapped in the building or refusing to leave.
- *If staff on the third floor 86 do not see Sean doing the evacuation sweep:* **staff teaching on the top floor on the 86 side** should make sure that one of them is **Acting 86 Side Fire Warden** checking all the rooms have been evacuated as they move downstairs
